

The Management of **OMB SISTEMAS ELECTRÓNICOS S.A.** understands as strategic elements for the development of the company carrying out all its operations under the highest quality standards

**THE SCOPE**

**THE DESIGN, PRODUCTION AND COMMERCIALIZATION OF DEVICES FOR THE BROADCASTING OF RADIO AND TELEVISION SIGNALS**

This commitment of the organization cannot be carried out without solid values, which are summarized in the principles that are developed below and whose content is the key and frame of reference for the performance of all the activities by those who work for and on behalf of the company:

- The **Continuous Improvement** is part of the company's working system, being compulsory and a requirement for all employees to participate in the achievement of quality and environmental goals in order to obtain a more effective and efficient organization in all processes day by day.
- All the results and improvements of our organization must be oriented to achieving the **satisfaction of our clients** and to reach a fully satisfactory relationship with them.
- **Compliance with legal and regulatory requirements applicable** to the commercial activities of biocide products for water treatment and disinfection, detergents and premixes with animal feed additives is a fundamental starting point for the development of our work.
- **Compliance with applicable environmental legislation and regulations**, as well as with other requirements that **OMB SISTEMAS ELECTRÓNICOS S.A.** subscribes to is carried out with the cooperation of all employees based on their commitment to the company and with this Policy.
- The **prevention of pollution** and the sustainable and effective use of natural resources reaches every element of the company in such a way that it is possible to minimize the environmental impact of our processes and activities, thus contributing to the **conservation of the environment**.
- **Training** is the fundamental element for **OMB SISTEMAS ELECTRÓNICOS S.A.** personnel to be able to perform their duties in accordance with the principles defined in this Policy, and the basis for ensuring their sensitivity and commitment to quality and the environment.
- The external and internal **communication** at all levels, based on effective and dynamic tools is the basis for the operation of the entire management system and the company itself.

Each and every one of the principles set forth herein are not only a reference and guide for all company workers but are also **communicated and transmitted to our suppliers, contractors and collaborators** to make them participant in our values and **commitment to quality** to achieve their support in order to reach our clients' maximum satisfaction and the greatest possible protection of the environment.

To make sure the implementation of this Policy and its precepts is carried out effectively, the Management of **OMB SISTEMAS ELECTRÓNICOS S.A.** undertakes to provide the necessary resources for this mission.
